Only American flags were tolerated in the process.

Only American flags were tolerated in the parade, and American flags decorated most of the buildings along the route, and hid the front of the great cathedral grand stand. Over the heads of the paraders snapped the great red, white and blue banner suspended between the Cathedral towers, and Fifth avenue from end to end below the park was ablaze with the national colors from noon until dark.

Under the leadership of Gen. Barry U. S. A., the Grand Marshal, and a big staff of aldes who have had experience extending over years in moving St. Patrick's Day parades, the great aggregation of marching men was assembled, and distributed without any serious disturbance or mishap. The only confusion was caused by the outside crowds overflowing the police lines.

Business on Fifth Avenue Suspended

In forming for the line the paraders utilized all the cross streets between Third and Fourteenth and Sixth avenue and Third avenue. Business along Fifth avenue was suspended after noon.

At the crossing of Fourteenth, Twenty-third, Twenty-eighth, Twenty-second streets there were special details of policement to regulate the occasional movements of street cars and vehicular traffic through the cross town arteries.

"We got the leathers and the wipes," too, said Dondero, flashing the corner of a red cotton handkerchief, "but we ain to go no bills."

"Bills" are the rolls of stage money that also figure among the working props.

"But we know where we kin git the bills,' added Micilli. "Come on wit' us and we'll lay in a stock and work toof street cars and vehicular traffic through the cross town arteries. The decorations around Washington Square were lavish, and business houses, clubs and dwellings along Fifth avenue were fairly hidden behind masses of flags and bunting.
